

Beauty

@Springboard

Come and join us in our brand new venture: Beauty@Springboard. Our specially designed beauty department at our Roker Avenue site can give you the opportunity to start a career in the beauty industry. Our courses are designed to fit your individual needs and to meet with employer's requirements.

The courses begin with an introduction to the beauty industry, the development of personal presentation skills and working as part of a team - progressing to developing skills in all aspects of beauty treatments such as:

Manicure

Pedicure

Skin Care

Make Up

As you progress in knowledge and confidence you can also develop skills in:

Waxing

Facials

Spray Tans

Eye Treatments (tinting and shaping)

Artificial Nails

We have a fully equipped beauty salon on site which will be open to the public for treatments and a training room to develop your portfolio of written work. You may also have the opportunity to have a placement in a beauty salon to gain more confidence and to experience the possibilities of a career in this fast expanding industry.

If you are a friendly person, good with people, passionate about beauty and willing to work hard to give people an excellent customer experience - then come and speak to us!
